Superintendent's Highlights

On September 19, 2001, the patrons of the Kuna School District passed a \$15.2 million bond election with a 72% majority. The bond funds will finance a new 1,100-student high school, purchase property and make minor improvements to existing schools. The additional classrooms will help the school district handle the 5% yearly growth in students it is currently experiencing.

The school district is in the process of matching all of the curriculum objectives with the state standards.

In the fall of 2001, the school district moved from the A-2 designation in athletics to the A-1, Division II classification.

Progress Towards Meeting District Goals

2000-01 Goals	Progress
Incorporate the district mission, vision, beliefs and objectives (system framework) in all written documents, committee work, building goals and everyday district operations.	The district uses the system framework in all decisions regarding student achievement, customer satisfaction, and accountability. Action plan teams forwarded recommendations on each strategy to the implementation teams.
Maintain a fund balance of at least four and one-half percent for bond rating and emergency purposes.	Once again, our audit confirms that the district maintains a five percent fund balance.
Review elementary school schedules using a committee of parents, teachers and administrators from both multi-track and traditional schools.	A committee was formed, met throughout most of the school year and made a recommendation to the Board of Trustees that would offer transportation to families in multi-track attendance zones who prefer a traditional schedule.
Establish a process of improving teacher recruitment and retention, including the continuation of a study to implement an alternative compensation plan.	An administrator of recruitment and retention was hired in January to develop a program that will encourage applicants to apply and accept employment in the district. Retention and an alternative compensation plan are on going goals.
